VOLUME OF HIGHWAY TRAFFIC ENTERING CANADA
ON TRAVELLERS' VEHICLE PERMITS
JANUARY, 1961

This series of monthly reports was suspended in September 1959 because of a change in the procedure for admitting foreign vehicles into Canada. This change was introduced in October 1959 by the Department of National Revenue, and was of such a nature as to make direct comparisons with previous years impossible.

Regular publication providing advance information on the number of travellers' vehicle permits issued each month is being resumed with this issue. In January 1961 there was an increase of 255,798 in the number of travellers' vehicle permits issued as compared with January 1960. On a percentage basis this represents a gain of 9.7 per cent on the total for Canada.

Data in the above table cannot be compared with the number of travellers' vehicle permits issued in 1959 or earlier years. The new procedure has the effect of showing a substantial increase in the proportion of travellers' vehicle permits issued to vehicles in Canada for 24 hours or less. A further breakdown showing the number of vehicles in Canada for 24 hours or less will appear in the regular monthly publication - Travel Between Canada and the United States (Catalogue No. 66-001). In the meantime, data in column 1 of the above table may give some indication of the proportion of short-term traffic that may be expected.

MARCH 1967

Foreign vehicles entering Canada during March 1967 numbered 613,924, an increase of 79,044 or 14.8 per cent over comparable data in the previous year. Data for 1966 have been revised to include taxis and repeat trips of commuters crossing on standing (L) permits which are not reported separately in 1967. The use of the E50 traveller's vehicle permit for the admission of foreign vehicles into Canada was withdrawn by the Department of National Revenue as of March 1, 1967.

APRIL 1967

Foreign vehicles entering Canada during April 1967 numbered 679,236, a decrease of 19,371 or 2.8 per cent less than the same month of last year. No doubt, the shift of Easter from April in 1966 to March in 1967 may have influenced the trend. A comparison of the two month period (March and April) shows a gain of 59,673 entries or 4.8 per cent over the corresponding period of 1966.

MAY 1967

Foreign vehicles entering Canada during May 1967 numbered 996,060, an increase of 113,512 or 12.9 per cent over May 1966. Some 96 per cent of the gain over the previous year appeared in Quebec which accounted for 109,214 of the overall increase. No doubt "Expo" contributed substantially to the gains in that area. Cumulative data for the first five months show an increase of 184,134, of which nearly 150,000 was in the province of Quebec. The pattern for the other provinces was varied with increases and decreases appearing for the period.

Entries of vehicles registered in other countries numbered 1,453,343 in June, an increase of 269,318 or 22.7 per cent in excess of June 1966. Cumulative data for the first half of the year show an increase of 453,485, of which 324,482 was in the province of Quebec, reflecting, no doubt, the influence of Expo on international travel to Canada.

JULY 1967

Entries of vehicles registered in other countries totalled 2,146,934 in July, an increase of 253,525 or 13.4 per cent over July 1966. Substantial increases were recorded for Quebec (182.5 per cent) and Manitoba (31.6 per cent) reflecting the influence of Expo and the Pan American games. No doubt, the curtailment of international travel in the Windsor - Detroit area during the latter part of the month contributed to the decline for Ontario. Cumulative data for the first seven months show an increase of 707,008 entries, of which 581,334 or 82 per cent was in the province of Quebec.

MAY 1968

Entries of vehicles registered in other countries totalled 955,273 in May, a decrease of 40,810 or 4.1 per cent under the corresponding month of 1967. The overall decline can be traced to the long-term traffic where 72,622 or 24.1 per cent fewer entries were reported. Gains were evident for all provinces except Ontario and Quebec where 1967 data were affected by the first full month of Expo attendance.

AUGUST 1968

Entries of vehicles registered in countries other than Canada numbered 2,006,207 in August, an increase of 32,539 or 1.6 per cent over 1967. The net increase was evidently in same day traffic, as vehicles remaining one or more nights declined by 26,823 or 3.1 per cent. Cumulative data on long-term traffic from April-August show a decline of 391,099 entries or 13.9 per cent. This decline was more pronounced in Quebec where entries in 1967 were influenced by attendance at Expo. On the other hand, entries of long-term traffic into New Brunswick and Nova Scotia advanced sharply in 1968.

FEBRUARY 1971

A total of 547,548 vehicles entered Canada in February 1971, a decrease of 8.5 per cent over the same period last year. This decrease may be due to the severe winter conditions experienced by the Province of Ontario this year, with total traffic decreasing substantially at Fort Erie and Windsor. Long-term traffic increased by 2.2 per cent for the period January - February, 1971.

MARCH 1971

Total vehicle traffic for the month of March decreased 10.9 per cent from the same period last year. The decrease may be partially due to Easter holiday period which will be in April this year as compared to March last year. Also Quebec recorded a large decline in total entries due possibly to snowstorms in early March that closed several roads at border points.
